BACHELOR'S DEGREE IN COMPUTER SCIENCE (MULTIMEDIA COMPUTING)

Motivated Computer Science undergraduate with hands-on experience in software development, technical support, and game development. Seeking a challenging opportunity in a tech-driven organization to apply my skills in system development, UI/UX, ICT support, 3D modeling, game programming or graphic design. I enjoy creative work and have a strong interest in both technical and visual aspects of development.

SKILLS

- C++, Java, Java EE, SQL, PHP, HTML/CSS/JavaScript, C#, Python
 - Design & Media: Adobe Photoshop, Illustrator, Animate, Canva
 - Streaming Tools: vMix, ATEM
 - Frameworks & Tools: Android Studio, Unity, Google Apps Script
 - 3D Tools: Blender, 3DS Max, Maya
 - Other: Microsoft Office, IT technical support (hardware & software)
-

PROFESSIONAL EXPERIENCE

ILKMM Sultan Azlan Shah, Perak

March 2023 – September 2023

Programmer / IT Support

Enhanced ICT helpdesk system with new features. Developed a facility booking system. Provided PC, printer, and software support. Assisted with curriculum system development. Supported event livestreams using vMix and ATEM switchers. Designed certificates and captured photos for institutional events.
